

Amendment 1 to Request for Project Proposal Number NBCH3090001R0005

The following question has been submitted in response to this solicitation and the answer to this question is provided below.

Question #1 – It appears that some paragraphs indicate the RBDP submittal should include two sections, Technical and Price, while other paragraphs mention a Management Section as well.

Answer – Yes, there is a conflict between paragraphs 1.0.1, 1.6, 3.1.1.2, 3.3.1, 3.3.2, and 4.1 as to whether a Management Section should be included in any proposal that is submitted in response to RBDP NBCH3090001-R-0005. For clarification purposes, offerors should include the Management Section as part of their Technical Proposal. It is acknowledged that paragraph 3.3.2 does not specifically identify what should be included in the Management Section. To comply with the Government's intent to have a Management Section included as part of any proposal that is submitted in response to this solicitation, offeror's proposals should, as a minimum, address valid past experience and personnel qualifications relevant to the proposed program.

The criteria for proposal acceptance or rejection shown in Paragraph 4.1 will be used for the evaluation of any proposal submitted under this RBDP
